

OLDEST PHYSICIAN IN DISTRICT DIES

Dr. John W. Bulkley Closes
a Brilliant Career.

MAN OF HIGH CHARACTER

Descendant of Old New England
Stock Long Maintained Successful
Practice in Washington, and Dur-
ing Civil War Was One of First to
Attend President Lincoln.

Dr. John Wells Bulkley, oldest physician in the District, died at his residence in the Portland at 4 o'clock yesterday afternoon, after a brief illness. During the civil war he was surgeon in charge of the Patent Office hospital, and was one of the first physicians to examine President Lincoln after he was shot, remaining with him until he died.

Dr. Bulkley was born in Williamstown, Mass., on December 13, 1823, and was graduated from William College in 1841, and from the Berkshire Medical School in 1844. He came from a long line of colonial New England ancestry, in which intellectuality was ever a predominant characteristic, and was seventh in descent from Rev. Peter Bulkley, who founded Concord, Mass., in 1636.

Had Large Practice.
Dr. Bulkley came to Washington a few years before the civil war, and long maintained a large and successful practice.

He was a man of great dignity of character, of particularly handsome and striking appearance, and esteemed and loved by all who knew his high character and integrity.

He married Virginia Johnston, a native of Washington and a daughter of Robert Johnston, of Frankfort, Ky., an associate of the late Amos Kendall, with whom he served as Assistant Postmaster General in Andrew Jackson's Cabinet.

He is survived by his wife and two sons—Robert W. and Barry Bulkley.

Oldest Member of Staff.

Dr. Bulkley was the oldest member in point of service and years on the consulting staff of Providence Hospital. He was a member of the American Medical Association, the Medical Society of the District, and the Medical Association of various other scientific societies and of the Cosmos Club, and the oldest living member of the Sigma Phi Fraternity.

He was vestryman of Trinity Episcopal Church, and there the funeral will be held at 3 o'clock on to-morrow afternoon.

WOMEN NAME DELEGATES.

Union Legion Auxiliary to Offer Resolutions at Encampment.

The ladies of Union Veteran Legion, Auxiliary No. 32, last night elected delegates to the national encampment to be held at Atlantic City, N. J., September 12 to 17.

Resolutions were framed looking to the perpetuation of the order, which will be presented to the national body. The local auxiliary is confident that their plans will be adopted.

The delegates are Past Presidents Mrs. Cynthia W. Ford, Mrs. Flora A. Lewis, Mrs. Harriet L. Schirmer, Mrs. M. E. S. Davis, Mrs. Ada H. Weiss, Mrs. Ella Knight, and Mrs. Catherine McKenzie; President Mrs. Alberta Mell, Mrs. Sarah Berry, Mrs. Mary Johnson, Mrs. Flora S. Edwards, and Mrs. Sarah Poynton. Alternates—Mrs. Mary Knorr, Mrs. Carlinda Marks, Mrs. Mary Tryon, and Dr. Caroline Burghard.

SEVERE STORM IN WEST.

Chicago Is Hard Hit by Lightning and Wind.

Chicago, Aug. 23.—Nearly a score of buildings were struck by lightning, many persons were injured, some of them fatally, and widespread damage was caused by the terrific wind and rain storm which broke over the city early to-day.

On the Lake the storm reached the proportions of a gale, causing fears to be entertained that vessels may have foundered.

It was the worst storm which has visited Chicago in some years. Trees were snapped off by the strong wind, trolley wires were torn from their fastenings, big signboards were wrecked, and plate glass windows shattered in all sections of the city. The police and fire department were kept busy from the time the storm broke until daylight answering calls.

OLD REGENT TO OPEN.

Edward J. Gardner Takes Over Hotel Despite Protests.

Edward J. Gardner will reopen the old Hotel Regent, Fifteenth street and Pennsylvania avenue, on September 5. The Regent has been closed for five months.

It stands on the property bought by the government for public buildings, and when it was closed it was stated that the rest had been raised so high that it was prohibitory.

Gardner, who keeps a saloon at Fourteenth street and the Avenue, said last night that his application for a bar and hotel license had been protested by other saloon men. The hotel will be a moderate price hostelry, with W. S. Shepherds as manager.

Capital and Surplus, \$2,500,000.

OSLER IN CITY.

Continued from Page One.

making a total in the District of Columbia of more than 400 per annum. It should be obvious how disproportionate is the alarm which is now excited about infantile paralysis.

Decision Is Secret.
Before this notice was given out the physicians excluded representatives of the press and discussed the disease in secret session.

Dr. Woodward and Dr. George N. Acker, a specialist on infants' diseases, differed. Dr. Woodward believed the paralysis is contagious beyond the shadow of a doubt. Dr. Acker said it is not contagious, and explained his stand at length.

That both have their supporters was demonstrated by the round of applause which followed both speeches. During the remainder of the evening lines were sharply drawn between those who think the disease is epidemic and believe in isolation of patients and those who believe it is not.

Woodward Favors Isolation.

"We are groping more or less in the dark," declared Health Officer Woodward. "The health department is doing everything it can with its facilities to stop the disease, but each of you must co-operate, and if you do, sooner or later we shall solve the problem."

"There is only too little that is known about this disease. I believe that we should avoid complete isolation of patients, and that we should also agree that the disease should be reported to the health officer."

Dr. Acker said there is no evidence to show that there is an epidemic, and that isolation, and the publicity which must follow, create unnecessary alarm among mothers.

When Dr. Magruder offered his resolution, he said it was evident there is not much probability of doctors agreeing in this case. He suggested that the best way to get results is to make the Marine Hospital Service referee. By submitting all evidence and all opinions to the government authorities, he said, they will be able to sift it and reach a correct solution. His resolution was that President Taft be requested to order a full investigation.

Protests Are General.

Almost immediately protests came from every part of the room. But there were many that believed Dr. Magruder had struck the right plan, so the debate became general and rather heated. Finally Dr. Magruder arose and withdrew his resolution, saying that if the association could not agree upon it he did not want it before the house.

Dr. Osler did not attend the meeting. He spent a busy morning in Baltimore, mentioning that he was bound for Washington, where there was to be an inquiry into infantile paralysis. It is believed he spent most of the day at one of the hospitals, and he is housed with friends.

Dr. Osler was for many years connected with the staff of Johns Hopkins University. He was called to the highest post possible for a doctor, regius professor at Oxford, about five years ago. It is not known when he will return to England. He is a close friend of President Taft. That he did not come to Washington to see the President is obvious from the fact that the President is at Beverly. It is said he came here solely to study the disease, and will make every effort to get away without his identity being disclosed, being bitterly averse to publicity since his widespread publication over the chloroform theory.

PYTHIAN PLANS EXTENDED

Grand Reception and Parade Postponed Until August 30.

Washington Company, Winner of First Prize at Milwaukee, Will Be Highly Honored.

A committee of thirty men from local and grand lodges will meet to-morrow night to make further arrangements for the reception and parade in honor of Washington Company, No. 1, Knights of Pythias, which were postponed from yesterday until August 30.

The company returned yesterday from the national convention at Milwaukee, in competition with companies from all parts of the country. Washington Company, No. 1, took, in Class B, the first prize, \$900 in gold. Class B is composed of companies entering with twenty-one men, who are adjudged on proficiency in drill and inspection.

The eighteen local lodges and the two temples of Pythian Sisters, comprising about 1,500 members, will unite to honor the prize winners.

Among those invited are Commissioner John A. Johnston, President Harries, of the Chamber of Commerce, Col. Burton R. Ross, and the cantons of the Independent Order of Odd Fellows.

The National Committee of the Knights of Pythias meets every two years. The next session will be held in August, 1912, at Fort Worth, Tex.

MRS. FLOWER IS DEAD.

Widow of Former Governor Passes Away at Watertown.

Watertown, N. Y., Aug. 23.—Mrs. Rosewell P. Flower, seventy-four years old, widow of former Gov. Flower, died at her home in this city to-day, after a month's illness from heart trouble. Her benefactions to the city of Watertown have been numerous. She leaves an estate variously estimated at from \$4,000,000 to \$8,000,000. One daughter, Mrs. Emma Flower Taylor, survives.

No Prize for Kaiser.

Christians, Aug. 23.—Ex-Premier Loveland, chairman of the Nobel committee, says, in reference to the report that the Kaiser is to be awarded the peace prize for his attitude during the crisis caused by the Austrian annexation of Bosnia and Herzegovina, that nobody has nominated his majesty for the prize, and that the committee does not contemplate bestowing it.

Frank Chamberlain Dead.

Albany, Aug. 23.—Frank Chamberlain, the father of Eugene T. Chamberlain, United States Commissioner of Navigation at Washington, died this afternoon from an attack of pneumonia. He was sick only once Friday, when he caught cold. He was eighty-six years old, and his ambition in late life was to live to be one hundred years old.

Rank of Knight Conferred.

At a regular meeting of Webster Lodge, No. 7, Knights of Pythias, last night the rank of knight was conferred upon C. C. Dieudonne.

OIL-BURNING SHIP SETS NEW RECORD

Torpedo-boat Destroyer Exceeds All Requirements.

Rockland, Me., Aug. 23.—The torpedo boat destroyer Paulding established a new record in the class of American oil-burning war ships to-day during her standardization trial over the Rockland course.

Her fastest mile was at the rate of 33.94 knots, or almost two knots in excess of the fastest mile made by the Ros on the Delaware course.

The average of the Paulding's five top-speed runs was 33.07, while the Ros's average was 31.43. The maximum horsepower developed to-day was about 17,000, which is 5,000 more than the horsepower for which she was designed.

The destroyer was sent over the course twenty-eight times.

The trial was watched with much interest from the decks of the cruisers North Carolina and Tennessee at anchor near by.

The Paulding will leave at 4:45 a. m. to-morrow on her twelve-hour run at sixteen knots for a water consumption test, terminating at Bath. This will be followed by a twelve-hour run at twenty-five knots, running to sea from Bath, then the final four-hour full-speed trial.

ECHO OF FEUD.

Hargis' Alleged Chief Assassin Is Murdered.

Lexington, Ky., Aug. 23.—A report from Jackson this morning is to the effect that John Abner, the man who is alleged to have been the chief assassin in the employ of the Hargis feud clan, was shot and killed at his home last night by unidentified persons. Bloodhounds have been sent from here to trace the assassins. Abner and John S. Smith were the chief lieutenants of Judge James Hargis—who was himself finally murdered by his own son—in the most daring plot ever known to exterminate Hargis' enemies in the town of Jackson by assassination.

BROOKINS SPINS IN AIR.

Aviator Makes Complete Turn in Five and a Half Seconds.

Asbury Park, Aug. 23.—Brookins had been in the air about four minutes to-day when, as he reached a point opposite the north end of the grand stand and more than 500 feet above the center of the field, with a strong southeast breeze blowing him higher each moment, he suddenly tilted at an angle that caused gasps and spun completely around in five and one-half seconds, according to the stop watch.

As the official sanction of the meet lasted only throughout the final three days of last week, Brookins' record whirl of to-day is not official. At the Indianapolis meet last June Brookins turned his machine all the way around in six and two-tenths seconds, which is now the officially recognized twist of the air.

OFFICER BITTEN BY DOG.

Lieut. Compton Struggles with Animal at Fort Leavenworth.

Leavenworth, Kans., Aug. 23.—First Lieut. Goodwin Compton, Thirtieth Infantry, was bitten four times by a supposed mad dog at Fort Leavenworth to-day. The dog is owned by First Lieut. C. S. Hamilton, now at Fort Riley, attending the maneuvers. In the struggle with the dog Lieut. Compton was bitten four times on the arms and wrists and afterward suffered severely from loss of blood.

An order was issued requiring all dogs at the fort to be kept in until the scare subsided. Lieut. Compton expects to leave to-morrow for Chicago to take treatment at a Pasteur institute.

ADVOCATES BIG STRIKE.

Delegate Wants All Commerce Tied Up for Three Weeks.

Copenhagen, Aug. 23.—The International Congress of Transport Laborers opened here to-day. The greatest interest centered in the matter of a great European strike of laborers, to last three weeks, which will be proposed by Havelock Wilson, the leader of the British Sailors and Firemen's Union. The majority of the delegates are opposed to the proposed strike. Only the English delegates and three Americans are inclined to favor Mr. Wilson's proposal when it is introduced.

MAY YOHE COLLAPSES.

Affected by Paralysis While Singing Song in a Cafe.

San Francisco, Aug. 23.—May Yohe (Lady Mayo) suddenly collapsed here while singing in one of the downtown cafes, where she began an engagement several weeks ago.

Physicians announced that she is suffering from temporary paralysis, affecting one side of her body, and it is feared her career is ended. The collapse came while Miss Yohe was in the middle of her song, and when the place was crowded.

Fractures Collarbone in Fall.

Tripping over a door mat, Martin H. Kensingor, forty-three years old, yesterday afternoon fell on a flight of steps at 1327 Seventh street northwest, fracturing his collarbone and inflicting several cuts and bruises about the head and face. He was removed to the Homeopathic Hospital, where he was treated, but collapsed on his way home. He was taken to Freedman's Hospital. His condition is not serious.

Woman Ascends Alpine Peak.

Paris, Aug. 23.—Mary Stoll, of Philadelphia, has ascended Mount Winklerturn, in the Tyrol. She is the first woman to ascend the high and dangerous peak.

Ocean Steamships.

New York, Aug. 23.—Arrived: Kronprinz Wilhelm from Bremen.

Arrived: George Washington, at Chelmsford; Louisiana, at Liverpool; Princess Irene, at Gibraltar. Sailed from foreign ports: Caronia, from Liverpool; Kaiser Wilhelm II. from Bremen.

Portugal and Vatican at Peace.

Rome, Aug. 23.—The Pope to-day gave an audience to Senor Lagoa, the new Portuguese charge d'affaires, who is stated to have been appointed to demonstrate its harmonious relations with the Vatican pending the difficult choice of an ambassador, for which post there are numerous candidates.

There have been seasons when the shirt waist was smarter, but never one when it was more effective or more popular.

HELD FOR ROBBERY.

Two Negroes Accused of Stealing Twelve Safety Razors.

Charged with robbing the wholesale drug house of Burch & Kleps, 315 Sixth street northwest, Winfield Johnson, alias Walter Williams, a negro, of Chester, Pa., and Robert Ball, a negro employee, are locked up at the Fourth precinct station. Ball was arrested Monday and implicated Johnson, whose arrest followed yesterday afternoon.

The store had been entered by cutting an iron-barred rear door. A dozen safety razors, \$3.50 in money, and several small articles were stolen. Ball was arrested by Patrolman Crouch in Seventh street as he was attempting to dispose of one of the razors.

Questioned that night by Lieut. Flathers and Detective Grant, the negro broke down and gave the name of his accomplice. Johnson was arrested a few hours later by Detective Grant. Both will be arraigned in the Police Court this morning.

HELD AS PIRATES.

Five Sailors to Be Court-martialed at Annapolis.

Charged with being pirates, five members of the crew of the American whaling schooner Pedro Verrall, of New Bedford, Mass., are being brought to Annapolis in irons on the U. S. S. Iowa, and will be turned over to the United States district attorney at that place for trial.

According to a wireless report received by the Navy Department, the men were turned over to the commandant of the Iowa by the United States consular agent at Horta, Fayal, where he had had them arrested on the charge of plundering a vessel on the high seas. Two other members of the whaler's crew are being held as witnesses.

WILL DRAW UP RULES.

Committee Named to Decide Upon Law of Merchants' Body.

Joseph Strasburger, chairman of the retail trade committee of the Chamber of Commerce, and temporary president of the Retail Merchants' Association, has appointed a committee to draft rules for the guidance of the association. Those appointed are: M. A. Leese, R. P. Andrews, and A. D. Prince. In appointing the committee Mr. Strasburger requested prompt action so that the report might be ready for the consideration of the board of governors of the association at a meeting to be called next week.

The local committee of the Brotherhood of Carpenters and Joiners have endorsed the invitation of the Chamber of Commerce to hold its convention next year in this city. The convention will meet in Des Moines on September 6, and it is probable that a delegate from the brotherhood in this city will be sent to Des Moines to work for Washington as the next convention city.

MOTOR WAR SHIPS NEXT.

New Type May Make Dreadnoughts Obsolete.

Portsmouth, England, Aug. 23.—The Evening News here today, on excellent authority that the British government will build battle ships which will be driven by motors. The battle ships will have internal combustion engines and no smokestacks.

It is prophesied, says the Evening News, that the present Dreadnoughts will be rendered obsolete.

The admiralty will neither confirm nor deny the report. The consensus of opinion among engineers is that it is very improbable, and except for the fact that the Evening News is ordinarily well informed on naval matters the story would have been ignored.

It is well known that the admiralty has been experimenting with internal combustion engines, but it is not believed it has got as far as applying that type of engine to a battle ship or obtaining an engine capable of developing the high speed necessary for such a vessel.

FILE SENATE PETITIONS.

Five Men in Race for Toga in New Jersey This Year.

Trenton, N. J., Aug. 23.—Former Gov. Franklin Murphy, of Newark; Representative Charles E. Fowler, of Elizabeth, and Frank M. McDermitt, a Newark lawyer, each filed petitions with the secretary of state to-day, declaring themselves candidates for the United States Senate, in accordance with the provisions of the act designed to make the selection a subject of popular choice. It was also announced that James E. Martine, "farmer orator," of Plainfield, would enter the lists with a petition to-morrow morning.

Mr. Murphy and Mr. Fowler, with former Gov. Stokes, who has already filed his petition, are all aspirants for the seat of Senator Keen, in the event of the next legislative being Republican. Mr. McDermitt and Mr. Martine base their hopes upon a turn in the tide which will place the Democrats in control.

It is by no means likely that any single candidate will receive the indorsement of any considerable portion of the voters of the State. On the Republican side Mr. Murphy and Mr. Stokes are likely to divide honors between the northerly and more southerly counties, while Mr. Fowler is counting upon an expression of popular approval in his own Congressional district.

Tennis at Cumberland.

Cumberland, Md., Aug. 23.—At the Potomac Club tennis tournament, for the championship of the Allegheny Mountains, to-day, T. W. McLean, Washington, defeated Hume Annan, Cumberland, 6-2, 6-3, and then defeated F. Edgerton Powell, champion of Cumberland, 7-5, 6-2.

Visited by State Commander.

Columbia Hive, No. 3, Ladies of the Macabees of the World, received an official visit from the State Commander, Mrs. Melva J. Caswell, at their regular meeting last night. Mrs. Caswell announced the award of the new city banner to Union Hive, No. 6, for the largest percentage of increase in membership.

Slender and Beautiful

HOW STOUT PEOPLE REGAIN A PERFECT SHAPE.

When a person is too stout and contemplates a special treatment to regain slenderness and beauty of form, there is one vital recommendation to be borne in mind: do nothing, take nothing that might be detrimental to health and strength. That means do not go to fast fasting; avoid violent exercise; but take plenty of rest and enjoy rational meals. With this exordium we will proceed to give the full recipe of the preparation, for reducing weight to normal and restoring slenderness and beauty, which is now in vogue everywhere: ¼ oz. Marmola, ¼ oz. Fluid Extract Cascara Aromatic, and 3½ oz. Peppermint Water.

Any druggist will make up this prescription, or supply the ingredients to mix at home. Take one teaspoonful of this harmless mixture after each meal and at bedtime. This truly scientific remedy acts beneficially on the whole organism, restoring vigor, speedily dissipating power, renewing the blood, and reestablishing the complexion. The reduction leaves no wrinkles; and there is a splendid redevelopment of muscular fiber.

BATHER DROWNED NEAR GEORGETOWN

Heart Failure Seizes Man in Potomac River.

Seized with heart failure as he was bathing in the Potomac River opposite the Three Sisters Islands above the Aqueduct Bridge, John Small, thirty-five years old, a house decorator of Georgetown, was yesterday afternoon drowned before aid could reach him.

Small went to the river about 6 o'clock, unaccompanied. He was seen to dive from a pile by George Wise, of 1430 Third street northwest, and Philip King, of 3107 M street northwest, who were on their way up the river in a canoe.

Small was an experienced swimmer, and when a few minutes afterward the two canoeists turned and failed to see him in the water, they turned back. Calling John Curry and Homer Willis, occupants of a houseboat moored nearby, a search was made, and the body recovered, about fifty yards below the place where the man entered the river. Clements' undertaking establishment was notified, and the body removed there. Coroner Nevitt returned a certificate of accidental death. Small's home was at 2915 M street northwest.

YANKEE ENTERPRISE FEARED.

Europe to Protest Against Syndicate's Purchase in Morocco.

Tangier, Aug. 23.—There is considerable alarm and much discussion in Spanish and native officialdom over the reported purchase by an American syndicate of the greater part of the country occupied by the Angera tribesmen, extending from Tangier to opposite Gibraltar.

It is feared that if the purchase has been made that it will place a serious obstacle in the way of the Spanish plans in Morocco. It is thought, however, that Germany, France and Spain will intervene to prevent the consummation of the sale.

The country in question would yield handsome returns if it were properly developed, and it is thought that European commercial interests, to say nothing of political interests, will compel some action to prevent Americans from securing the control of such important territory.

SPEECH BY CROWN PRINCE.

Universities to Emphasize German Nationality.

Berlin, Aug. 23.—Crown Prince Wilhelm, in accordance with the precedent set in the case of his grandfather, has been named rector magnificentiimus of the University of Koenigsberg. He was formally invested there to-day with imposing ceremonies. He wore gold embroidered silk robes.

At the conclusion of the exercises he made his first important speech in public. He told the rectors of the university that it was the duty of the educators to do something more than merely awaken the public to a sense of the weakness and failures of the country.

They should "emphasize our German nationality in opposition to the efforts at internationalization, which threaten our distinctive national character."

NO TROUBLE ON WAR SHIP.

North Dakota a Perfect Ship, Declares Capt. Gleaves.

Newport, Aug. 23.—Since the new battle ship North Dakota, which is now here, went into commission, there had been some rumors that things were not altogether as they should be aboard. Capt. Albert Gleaves, commanding officer, when asked to-day what he thought of the North Dakota remarked:

"The North Dakota is the most perfect battle ship in the world."

This should set aside any rumor that the ship was anything like trouble aboard.

That the crew of the ship, with the 1,500 men were given shore liberty, and only eighteen out of the large number overstayed their leave.

SEAL POACHERS CAPTURED.

Revenue Officers Badly Handicapped by Lack of Vessels.

According to reports received by the Departments of Justice, and Commerce and Labor, Japanese seal poachers are causing trouble for the revenue cutters patrolling Bering Sea and northern Pacific waters.

The little jail at Unalakleet, Alaska, is overflowing with poachers. Capt. D. P. Foley, in command of the fleet, states in his report to his office that he is badly handicapped, both for lack of vessels to patrol the coast and proper persons in which to put captured poachers.

There is imminent danger, according to the report, that the prisoners will break from the little jail at Unalakleet. The prison was built to accommodate sixteen male prisoners.

May Nominate Foss.

Boston, Aug. 23.—October 6 was selected as the date for the Democratic State convention by the State committee, which met at the Quincy House to-day. Many of the prominent Democrats of the State were present, and the sentiment seemed to be that Mayor Fitzgerald can have what he wants at the convention. The opinion prevails that the mayor wants Representative Foss nominated.

Marseilles is one of the very few large cities of the world which shows a persistent increase in the infant mortality.

Slender and Beautiful

HOW STOUT PEOPLE REGAIN A PERFECT SHAPE.

When a person is too stout and contemplates a special treatment to regain slenderness and beauty of form, there is one vital recommendation to be borne in mind: do nothing, take nothing that might be detrimental to health and strength.
